**Upcoming:**

**Wastewater Influent and Effluent Sampling at Limetree Bay Terminals Wastewater Treatment Plant**

**St Croix, USVI:** At the request of CASD-RPB, DESA-MAB will conduct a TPDES compliance sampling inspection at Limetree on June 26-27, 2018. The Limetree Bay Terminals wastewater treatment plant (WWTP) handles the remediation wastewater from the HOVENSA's groundwater remediation program. HOVENSA formerly managed this WWTP, first when it was operating a refinery and then when it served as a terminal prior to HOVENSA's bankruptcy. Sampling will be conducted at the ballast tank immediately before the wastewater is treated, at wastewater treatment plant outfall immediately after treatment, and then at the site outfall. The comparison of data among these areas would be the best indicator of how well the plant is treating the specific chemicals found in the wastewater from the HOVENSA ERT's groundwater remediation system. (POC: R. Morrell)
